Large oven

Whether you're making a pizza for the kids, preparing a pasta bake for a big family dinner or just grilling yourself a healthy lunch, the Bosch **HBS534BS0B Electric Oven** has a range of cooking functions so you can always get the best results. You've got seven different functions to choose from, and with a large capacity of 71 litres, you'll have ample space for whatever you decide to make.

3D Hotair

The 3D Hotair function optimally distributes heat around three levels in the oven at the same time. It's great for cooking large dishes, such as roast chicken. It's also handy for making different foods on each shelf, ensuring every dish is cooked evenly and to perfection.

Versatile cooking

The **HBS534BS0B** comes with a split 2-piece pan, so you can cook different combinations of foods at different durations on the same shelf. Really useful for making a tasty side dish along with a mouthwatering main at the same time.

EcoClean

Cleaning an oven can be real hard work. But with the **HBS534BS0B's** EcoClean, scrubbing away on your knees for ages becomes a thing of the past. The special coating on the back wall of the oven automatically absorbs the grime, so you can sit back and relax after a family meal.
