

Hassle-free Cooking

With two oven cavities, you can multitask effortlessly. Just use the dials and mechanical display to set and adjust your cooker to your needs.

In the main section, you'll find a fan oven - ideal for budding bakers. Across the two shelves you'll have 77 litres of space to use and three settings to choose from:

- Thermaflow®
- Defrost
- Oven Lamp

On top of this, you'll find the handy convention oven. With 39 litres of usable space and one shelf, you'll have four settings to use:

- Dual Circuit Grill
- Full Grill
- Conventional Grill
- Oven Lamp

Adjust the variable grill to find the perfect temperature to finish off your latest creations. And, easily keep an eye on whatever you choose to cook with the internal light in both ovens.

The hob's four electric zones allow you to fry, boil or sauté while you cook. Plus, the ceramic surface makes for quick heating up before - and wiping down after - a meal.

Innovative Zanussi Design

With an energy rating of 'A' awarded to both the hob and ovens, the ZCV66078XA is an eco-friendly choice. Save on your energy bills while trying out new recipes. You'll love the interior enamel lining, designed to make the oven simple to clean. The triple glazed doors can even be removed to soak off any stubborn stains or marks.

And, the convenient Minute Minder will remind you when dishes are ready to be served. This double oven cooker is designed with your home in mind.
