

Built-in Hob

Lets you easily get the exact cooking temperature you want

Thanks to this hob's clever easy-touch controls and digital display, you can be sure of having the heat settings for your dish at the touch of a finger.

Gives you some of the quickest results possible!

The ceramic cooking zones on this hob heat far more rapidly than solid hot plates, enabling you to boil water and cook meals even faster.

Maximum ease and flexibility in cooking

The three differently sized cooking zones on this hob let you easily cook using pots and pans in a wide variety of dimensions.

More Benefits :

- Ceramic glass surface for fast, easy cleaning
- Residual heat indicator for increased safety

Features :

- 15 power level digital display
- Wipe clean ceramic hob surface
- Residual heat indicators
- Auto safety switch off
- Easy to reach front controls
