

Get clothes washed quickly and save energy for efficient washing

- WaveDrum makes sure your clothes are being washed with protection
- Home Connect lets you stay in control of your washing from your phone

### **Automatically measures detergents**

Get all your washing done with the Bosch **Serie 6 i-Dos WAT286H0GB Smart 9 kg 1400 Spin Washing Machine**. iDos perfectly measures, and perfectly washes - first your washing is automatically weighed, checks how dirty the clothes are and then drops exactly the right amount of detergent into the wash. It even makes sure it's using the right amount of water, so you can be sure your clothes will come out clean.

All you need to do is fill the machine with detergent and it will take care of the rest. You'll use less water (up to 7000 litres a year!), helping you to save money on your bills and being kinder to the environment.

### **Never overlook a stray sock again**

Dropped a sock? Accidentally mixed a brightly coloured top in with a load of whites? No worries. The Unlock and Reload function gives you a second chance, leaving you free to add and remove clothing.

### **Get clothes washed quickly and save energy**

Whether you're in a hurry or you're looking to save money on your energy bills, the **Serie 6 i-Dos WAT286H0GB Washing Machine** has got you covered. The SpeedPerfect function can wash a full load of laundry in just one hour, while the EcoSilence Drive delivers a quieter, faster and more efficient performance.

### **WaveDrum**

We always want our clothes to stay looking and feeling great and thanks to the WaveDrum, you can be sure your washing machine won't damage them. It will make sure your clothes will have a gentle wash even on precious fabrics such as wool.

Thanks to its unique structure you can be confident your clothes will get the care they deserve.

### **Home Connect**

Keep connected to your washing machine thanks to the Home Connect app. Select the program you want to use, check how much time is left on your load and get a notification once it's completed. It's ideal for those moments you're out in the garden or down the shops and can check in on your machine.

The Bosch **Serie 6 i-Dos WAT286H0GB** has an illuminated dial so you always know what program you're selecting. You also have a digital display so you can always know what's going on.

With a five year guarantee, you can enjoy peace of mind.
