

Reliability is built into our washer dryer We've built durability into our washer dryers with our powerful inverter motor. You can wash and dry large loads of laundry over and over again, quickly and with less noise.

Washer Dryer designed to last We've designed the inverter motor within our washer dryers to deliver excellent results time after time. The motor is reliable and durable, taking laundry from dry to dry quickly and quietly.

Brilliantly clean with pre-wash options Use our pre-wash function to achieve great laundry results. Stubborn stains and hard-to-clean clothing is washed better thanks to our programme. If allergens are an issue, select the extra rinse option to remove them from your laundry.

More Benefits : Choose the QuickWash option for up to 50% faster washing. •

Wash and dry your clothes in one go thanks to the AutoDry button. •

The special drum pattern washes and dries clothes in the gentlest way. •
