

The Zanussi ZWD71463NW washer dryer is ideal when you have limited space but would love a washing machine and a tumble dryer. Complete with an excellent B rating for both energy efficiency and spin performance and a brilliant A rating for wash performance.

Auto adjust

Ensure your energy bills remain low with the AutoAdjust feature. This feature helps you to save you time and reduces your energy and water consumption for each individual load.

Quiet inverter motor

The ZWD71463NW's inverter motor allows for increased washing and drying performance all while operating at a reduced noise level.

Better drying

Just because your dryer is housed in the same body as your washing machine, doesn't mean you have to sacrifice drying quality. With a condenser dryer built-in, you get a simpler, more efficient machine. You can also choose from several automatic drying programmes or to simply dry by time.

Programmes:

- Cotton
- Cotton Economy
- Synthetics
- Wool
- Delicate
- Mix 20
- Super Eco 15
- Drain
- Spin
- Rinse
- Wool Dry
- Synthetic Dry
- Cotton Dry
- Mini 30
