

- Capacity: 8 kg
- Spin speed: 1400 rpm
- Quick wash time: 15 minutes for 2 kg
- Energy rating: A+++
- Anti-allergy program - ideal for allergy sufferers

SpeedPerfect

Get your laundry done faster with the Bosch **Serie 4 WAN282X1GB 8 kg 1400 Spin Washing Machine**. Its SpeedPerfect function reduces the length of each wash cycle, so you can turn a full load of laundry around up to 65% quicker.

14 programs

Whether you're washing a silk blouse or a woolly jumper, there's a dedicated program to match. Choose the Shirts program to keep your work clothes smart, or use AllergyPlus if you're sensitive to allergens. And the Sportswear cycle gives your kit the deeper clean it needs to wash out sweat and soil.

ActiveWater

Save on energy bills with Bosch's ActiveWater system. It uses built-in sensors to calculate how much water is needed for each load, so you won't waste money on excess water or electricity.

Pause and reload

Dropped a sock? No worries. The Reload function gives you a second chance, letting you add and remove clothing after the wash cycle has started.

Quiet and reliable motor

Bosch's EcoSilence Drive motor uses magnets instead of brushes, so there are fewer moving parts inside your washing machine, and less wear and tear over time. This means the motor is quiet, reliable and fast.

Practical features

The **WAN282X1GB** has a large, clear LED display with touch controls that make it easy to choose the right program. And its Start Delay feature lets you postpone your washing by up to 24 hours, so it's ready when you need it to be.
